

TEIGNMOUTH HARBOUR COMMISSION

PRESS RELEASE 26.3.15

National Role for Teignmouth Harbour Master

Teignmouth Harbour Commission (THC) is delighted to announce that Commander David Vaughan OBE, Chief Executive and Harbour Master, has been elected by the council and members of the UK Harbour Masters Association to be their new President. The Association represents Harbour Masters from across the UK, including major ports such as London, Southampton and Felixstowe.

THC Chairman Jeremy Grammer commented... "This is the first time that a representative from a smaller port such as Teignmouth has been appointed to this national position for a number of years. It's great news for David, recognising as it does his enormous standing and commitment to harbour mastering and the ports industry.

It's also very good news for Teignmouth. It puts the town and harbour on the national map.

David is a fantastic ambassador for our maritime interests and heritage in Teignmouth, and for the community as a whole"

Commander Vaughan is currently Chair of South West Regional Ports Association and was recently re-elected as Chair of the Teign Estuary Partnership.
