

NOTICE TO MARINERS

Repair Works to Bracing/Decking Teignmouth Pier Start 27/01/20 complete 27/3/20

Mariners and ports users are advised that repair work will be taking place to Grand/Teignmouth Pier Teignmouth, These works will be restricted to either on or directly below pier location

Works will require the use of a small safety/work boat operating below the pier whilst activity takes place to repair bracing and decking to the structure.

As with the pier structure itself we would ask boat users to give the structure and support craft a wide berth.
